

A Lasting Impression

Ramboo
RAMBOO COLOURCANE LTD

Formed in 1982, Ramboo is East Africa's market leader in the manufacture of quality simulated rattan and bamboo furniture for residential and commercial use. Our excellent reputation is a direct result of our business ethics: integrity; a commitment to quality; and a passion for providing total customer satisfaction. Many of East Africa's best-known hotels, restaurants and clubs are Ramboo clients and our products are found in many homes and gardens worldwide.

An extensive range of hand-woven and solid cane products are manufactured at our factory on Mombasa Road in Nairobi. Our unique, patented 'wood grain' process creates beautiful, natural looking furniture that is incredibly strong and completely maintenance free. Our products are ideal for outdoor use, unaffected by humidity, temperature or sunlight and resistant to salt, staining or chemicals: this results in a very long product life and therefore a very sound investment. All products are available in a wide range of colours and all upholstery and cushions are tailor-made to customer requirements. In addition, Ramboo's in-house design team can help you create bespoke furniture for your home or business.

Quality systems are the backbone to the production process: from raw material sourcing to pre-delivery inspection, our stringent quality assurance checks ensure high standards are maintained consistently. Ramboo is an ethical employer with a dedicated workforce of over 150 staff. We recognise that our success is down to our people and Ramboo's investment programme therefore addresses employee training, welfare, safety and career development.

Ramboo's environmental policy is an integral part of its business strategy and we are committed to providing a safe and healthy work place, protecting the environment, and conserving energy and natural resources. Only recycled waste pvc is used in the manufacturing process.
